Financial regulations must be observed in conjunction with the council's standing orders and any individual financial regulations relating to contracts.

- 1.1. The council is responsible in law for ensuring that its financial management is adequate and effective, and that the council has a sound system of internal control which facilitates the effective exercise of the council's functions, including arrangements for the management of risk.

- 1.10. The accounting records determined by the RFO shall in particular contain:
- entries from day to day of all sums of money received and expended by the council and the matters to which the income and expenditure or receipts and payments account relate;
  - a record of the assets and liabilities of the council;
  - wherever relevant, a record of the council's income and expenditure in relation to claims made, or to be made, for any contribution, grant or subsidy.
- 1.11. The accounting control systems determined by the RFO shall include:
- procedures to ensure that the financial transactions of the council are recorded as soon as reasonably practicable and as accurately and reasonably as possible;
  - procedures to enable the prevention and detection of inaccuracies and fraud and the ability to reconstruct any lost records;
  - identification of the duties of officers dealing with financial transactions and division of responsibilities of those officers in relation to significant transactions;
  - procedures to ensure that uncollectable amounts, including any bad debts are not submitted to the council for approval to be written off except with the approval of the RFO and that the approvals are shown in the accounting records;
